3800W Electric Start Inverter Generator

GT3800Ei

With perfect power and compact design (only 35kg), this single-phase inverter generator is ideal for camping, on-site or household backup power.

- 3800W (max) 3500W (rated).
- Push button electric start with EZ recoil backup for easy starting.
- 4-stroke powerdyne OHV engine for ultimate durability and reliability.
- Smart throttle for quiet operations and fuel savings
- Low oil-shut down helps to prevent generator damage
- Digital control panel for simplified management and monitoring of parameters

TAKE ADVANTAGE OF THE LOW VALUE ASSET WRITE OFF PROVISION BEFORE THE END OF THE FINANCIAL YEAR AND SAVE YOURSELF \$\$\$

One of the provisions introduced by the government in response to assist business during the 2020 financial year has been to raise the threshold for businesses to claim immediate deductions for low value assets from \$500 up to \$5000. This means that there is no time like the present to invest, or upgrade, equipment to help improve productivity and efficiency.

This provision runs from the 17th March 2020, through until 17th March 2021, when the threshold will be lowered back down to \$1000. Don't miss out, take advantage of the substantial savings available to you today!

In effect, in buying a steam cleaner, compressor, welding machine under the \$5000 threshold you will be saving an additional 28%.

PRODUCT SPOTLIGHT!

NEW PLASMA CUTTER

ADVANCECUT75

The powerful 3 phase Plasma Cutter in a tough compact package. With IGBT technology and the capability of severing up to 35mm carbon steel with CNC interface capability, look no further than the ADVANCECUT75 for serious industrial cutting solutions.

- IGBT module inverter technology for smooth & stable output, increased reliability, high duty cycle
- Heavy Duty Italian TH-125 plasma torch as standard for superior cutting performance and consumable life
- Designed for operating with automated CNC cutting equipment
- Pilot Arc Control System for increased cutting capability
- Intelligent machine protection system for increased reliability & safety

WELDING HELMETS panoramaxx

TIG Optimised

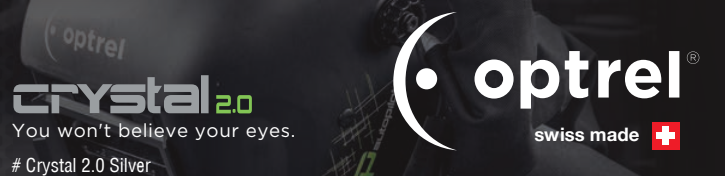

PANORAMAXX

The Panoramaxx offers a field of vision that is 6x larger than a standard ADF welding helmet. With it's unique ADF the lens is closer to the eyes, providing maximum viewing comfort while maintaining protection.

Combined with light state 2.5, automated shade level adjustment 5-12, and lightweight design, this helmet is comfortable and easy to use. The multi-sensor detection ensures perfect regulation of the auto-darkening filter, and the rechargeable power-pack removes the need for changing batteries, helping to improve safety and convenience.

~~\$869.00~~ **\$795** +gst
